OUR STORY

Suhana Fashions Limited was born out of a lifelong passion for textiles and a deep rooted commitment to excellence in garment manufacturing. Founded by an industry veteran with over 30 years of hands on experience, the company was established to meet the growing global demand for high-quality, ethically produced apparel from Bangladesh. The founder's journey began in the early 1995s, working across a range of textile sectors including knits, woven fabrics, denim, garment washing, and finished apparel production. Over the years, he gained in-depth knowledge of every stage of the production process, from fabric development and cutting to finishing and quality control. This technical expertise and leadership acumen laid the foundation for what would become Suhana Fashions Ltd. The company officially started its operations with a clear mission: to deliver premium apparel products to global clients by combining advanced technology, skilled craftsmanship, and strict quality control. Starting with a compact setup, Suhana Fashions invested early in building a modern, efficient production facility. This included the installation of 50 sweater knitting machines, 200+ sewing machine sets for garments like Outerwear, shirts, suits, and blazers, along with laser cutting & fusing machines to support precision manufacturing.

What set Suhana Fashions apart from the beginning was its attention to detail, flexibility in customization, and its deep respect for timelines qualities that quickly earned the trust of clients in Europe, North America, and beyond. As demand grew, the company continued to expand both its capacity and product range, adapting to the evolving needs of international fashion brands and retailers. In addition to strong operational capabilities, Suhana Fashions Ltd. Emphasizes ethical business practices, workforce welfare, and sustainable production with BSCI & SEDEX Certifications. With plans underway to further expand machinery, workforce, and certifications (such as WRAP, OEKO-TEX & GOTS), the company is positioning itself as a future-ready partner for global apparel sourcing. Today, Suhana Fashions Limited stands as a testament to what can be achieved through experience, hard work, and a relentless pursuit of quality. With a proven foundation and a bold vision, the company continues to move forward one stitch at a time toward becoming a trusted name in the international apparel industry.

OUR MISSION

Our mission is to be a trusted global partner in apparel manufacturing by delivering high-quality, ethically produced garments that meet the dynamic needs of international markets. We are committed to excellence in every step of our production process, from design to delivery.

We prioritize innovation, sustainability, and ethical practices, ensuring that each garment reflects the latest trends and meets global environmental standards. Our in-house development setup enables us to bring new ideas to life swiftly and efficiently.

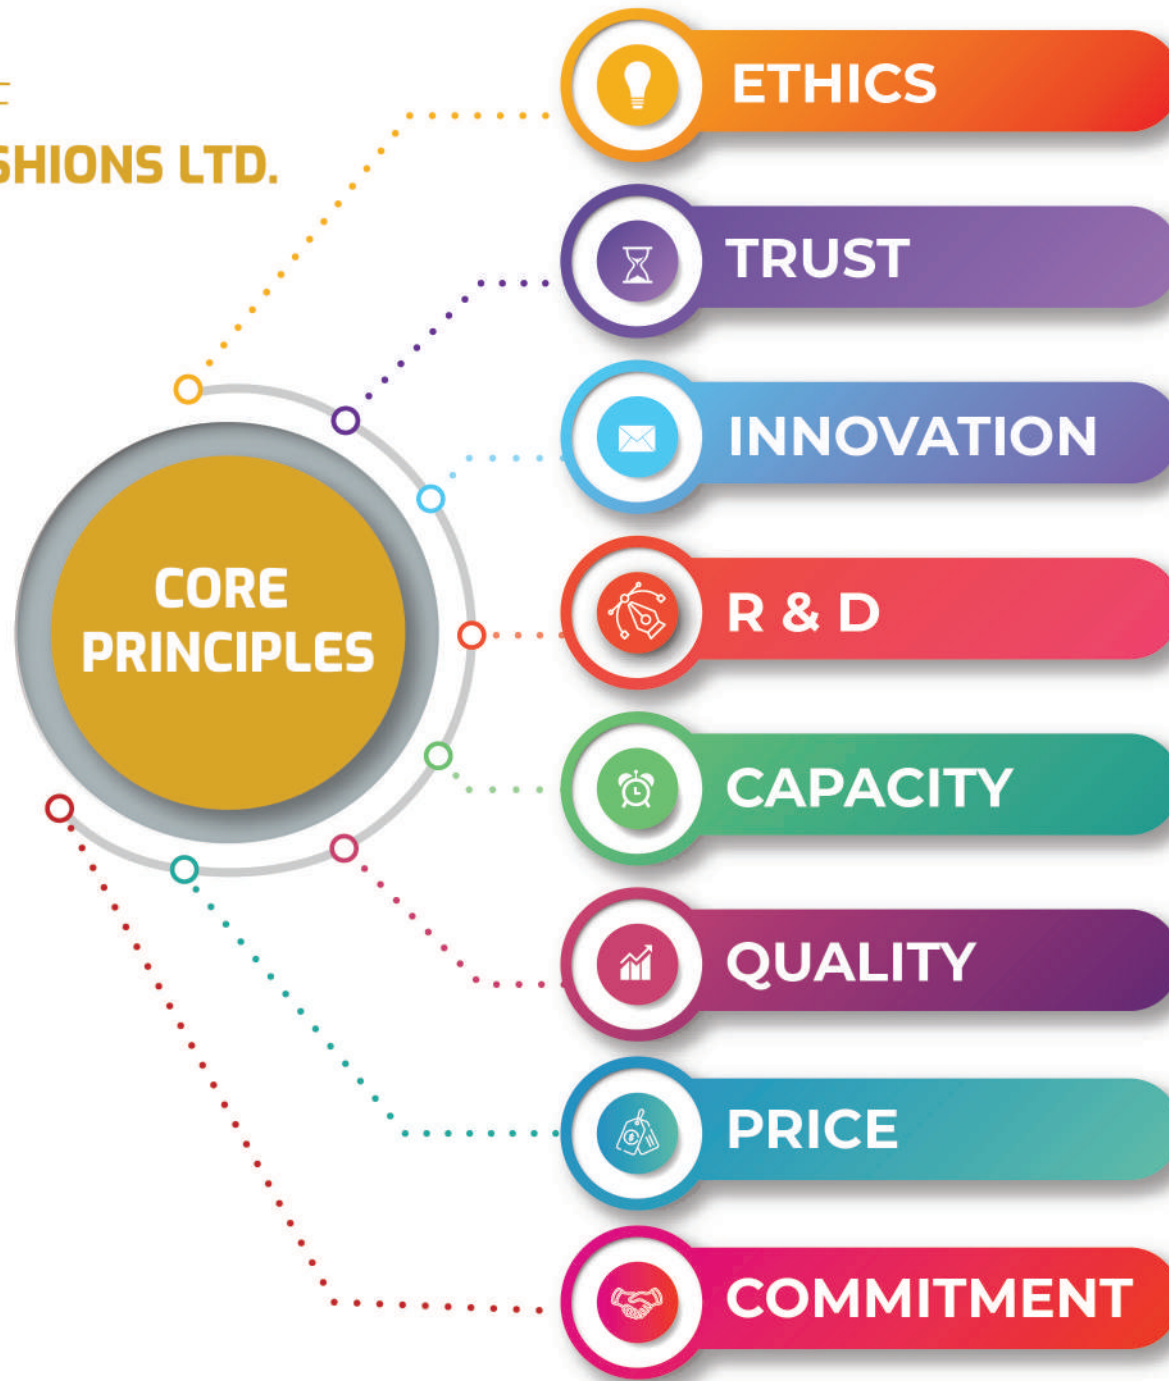

Customer satisfaction is at the core of our operations, with a focus on creating long-lasting relationships through tailored solutions and timely delivery. We combine local expertise with a strong international network to meet the diverse demands of our clients worldwide.

Through these principles, we strive to build trust and become the preferred partner for apparel manufacturing, creating products that reflect our commitment to quality and sustainability.

CONCEPT OF
SUHANA FASHIONS LTD.

OUR STORY IN **OUTERWEAR** & **BLAZER MANUFACTURING.**

At Suhana Fashions Limited, our journey into the world of outerwear and blazer manufacturing is built on a foundation of craftsmanship, precision, and innovation. What began as a vision to produce high-quality tailored garments has grown into a trusted name in the global fashion industry.
